

## Tools4ever improves efficiency at Hutto Independent School District with connections to Skyward and Google Apps

With connections via Toolsever's UMRA, Hutto ISD has saved insurmountable man hours and money by automating manual tasks and user account organization

*Seattle, WA, August 18, 2011* – Tools4ever, the market leader in Identity and Access Management solutions, is pleased to announce that Hutto Independent School District (ISD) has implemented User Management Resource Administrator (UMRA). Hutto ISD came to Tools4ever to secure a solution that would allow the IT staff to proactively manage their users rather than work in a reactive cycle. Managing over 6,300 users (students, faculty and staff) became very time consuming. Tools4ever's UMRA solution provides automated support and connects with Skyward Student Information System making managing user accounts more efficient. Data is pulled from Skyward SIS and is synced with Active Directory at each project run. This has ensured user accounts are up to date and that Active Directory is clean, organized and has a consistent folder structure. Travis Brown, Network Administrator for Hutto ISD in Texas had this to say about Tools4ever's connection to Skyward; "Tools4ever's UMRA software has saved our district considerable man hours and resources by connecting to the Skyward Student Information System to automatically manage our user accounts in Active Directory. The Tools4ever consultants did an outstanding job implementing the UMRA and we began saving immediately."

Hutto ISD has also added the provisioning of user accounts to Google Apps. By implementing a provisioning project to connect AD and Google Apps they continue to advance technology to the school district in a smart, proactive way without exhausting man hours or additional resources. The connection to Google Apps projects will run daily with the previous synchronization projects.

### About Tools4ever

Tools4ever distinguishes itself with a no-nonsense approach and a low Total Cost of Ownership. In contrast to comparable Identity & Access Management solutions, Tools4ever provides a complete solution in several days rather than weeks or months. Partly thanks to this approach, Tools4ever is the undisputed Identity & Access Management market leader, with more than one million managed user accounts. Visit [www.tools4ever.com](http://www.tools4ever.com) for more information.
