

# Tools4ever releases MonitorMagic version 6, build 1320

---

**New York, NY (November 15th, 2005)** – Tools4ever, leading provider of disk quota, user management and network management solutions, today announced the release of MonitorMagic version 6, build 1320. MonitorMagic is a popular Network Monitor solution for high-volume enterprise environments. MonitorMagic Enterprise version 6 improves upon network overview, providing system administrators with better access to key computer system status in less time.

## **New features:**

- The global alarm window has been updated. It is now possible to place alarm items in (user defined) groups. The group icon indicates if the folder contains any items in alarm state.

## **Pricing and Availability**

MonitorMagic 6 is available at no additional cost to current owners of MonitorMagic. First-time buyers can purchase the first server license MonitorMagic for \$599.00 (US) as an electronic software download. Quotes can be requested online at <http://www.tools4ever.com/> or by calling (516) 482-4414. Additional information concerning pricing, licensing, and support policies is also available through these sources.

## **About Tools4ever**
