

Baarn, The Netherlands – 1th June 2003 – Tools4ever, worldwide manufacturer of system administration tools for network administrators across all Windows platforms, has opened a new office in France, to fully support customers and prospect on the France market in both commercial and technical sense.

The demand for Tools4ever products in France has grown exponentially over the past years. Using a local French office, Tools4ever is able to optimally support and assist customers and prospects looking for Disk Quota Management, User Management and Network Management tools. Tools4ever will also use its local office for focused marketing operations to support general sales for existing local resellers.

Focusing across 4 main problem areas of Windows system administration, tools4ever has established a worldwide reputation for providing cutting edge solutions in migration, user management and domain administration, network monitoring and disk space management. Product names such as SpaceGuard, MonitorMagic and UserManagemenT are well recognised across worldwide systems solutions markets.

As Jacques Vriens, President of Tools4ever, explained: "By opening a local French office, we are able to offer a higher level of service to our customers and prospects. We have carefully selected native French employees on knowledge of Windows environments and Tools4ever products. Based on the French technological lead and the need for professional technical tools, we have high expectations from our new office.

Paul Shergold, Managing Director of the French office: "Our employees in France bring many years of experience in the field using and selling Tools4ever products to our new office. France's potential is huge and we expect to assist and support lots of customers and prospects in using Tools4ever products."
