

Tools4ever announces MonitorMagic Enterprise version 6

Baarn, The Netherlands – September 1st, 2003 - Tools4ever, leading provider of Disk Quota, User Management and Network Management software for all Windows platforms, announced today the launch of MonitorMagic Enterprise version 6, the latest version of its popular Network Monitor solution for high-volume enterprise environments. MonitorMagic Enterprise version 6 improves upon network overview, providing system administrators with better access to key computer system status in less time.

New feature highlights of MonitorMagic version 6:

1. Global Alarm Window: A new alarm window is introduced. The global alarm window presents summary information for all monitored systems. Now it is possible to view the status of the complete network in a single window.
2. Control center: The MonitorMagic control center is shown (by default) at the bottom of the MonitorMagic frame window. The window shows the status of MonitorMagic services to which the MonitorMagic client is connected. You can easily browse all connected services, configure them and view service-related information such as database configuration and license mode.
3. File monitor: The file monitor is extended with 4 new fields: Age oldest file (sec), Age most recent file (sec), Modification elapsed time (sec) - minimum, Modification elapsed time (sec) - maximum. The fields can be used to trigger rules based on the creation and modification time of one or multiple files.
4. File monitor: The file monitor is extended with 2 new keywords: Matching text and Matching file. These fields can be used in alarm actions when searching for specific keywords (for example: ERROR).

Pricing and Availability

MonitorMagic 6 is available at no additional cost to current owners of MonitorMagic. First-time buyers can purchase the first server license MonitorMagic for \$599.00 (US) as an electronic software download. Quotes can be requested online at <http://www.tools4ever.com/> or by calling (516) 482-4414. Additional information concerning pricing, licensing, and support policies is also available through these sources.
