

# PRESS RELEASE

## Tools4ever announces **SpaceGuard SRM 5.4** Disk Quota and Storage Resource Management Available March 2004

**New York, NY (February, 2004)** – Tools4ever, leading provider of disk quota, user management and network management solution, announces the availability of version 5.4 of its widely recognized SpaceGuard SRM disk quota solution. This version of SpaceGuard SRM adds Active Directory integration for Windows 2000 and Windows Server 2003 environments. By integrating with the Active Directory, SpaceGuard SRM dramatically cuts back on configuration effort, lowers TCO by integrating with existing resources and offers an even lower learning-curve through automatic configuration.

"We believe it is important to continue enhancing and investing in our disk quota management solutions," said Jacques Vriens, CEO of Tools4ever. "As shown by many analysts such as IDC and Gartner, the anticipated need for storage capacity has grown almost 90% a year between 1998 and 2003. We are very interested in continuing to offer the most robust and valuable disk quota solutions to increase user awareness and stop uncontrolled storage growth."

Feature highlights of SpaceGuard SRM 5.4 include:

- **Automatic SMTP e-mail address resolving**; based on automatic quota-to-user matching, SpaceGuard SRM 5.4 automatically resolves the user's e-mail address from the Active Directory.
- **Use Active Directory attributes in notifications**; use any Active Directory user attribute in notifications, such as telephone number and address information.
- **Export to Microsoft® Excel**; SpaceGuard SRM can export selected quotas and configuration information to a csv compatible file for integration with office applications such as Excel to produce basic reports.
- **Unattended agent installation**; agents can be installed locally or remotely using a command line utility, which allows for unattended installations and script integration.

### **Pricing and Availability**

SpaceGuard SRM 5.4 is available at no additional cost to current owners of SpaceGuard SRM. First-time buyers can purchase the first server license SpaceGuard SRM 5.4 for \$599.00 (US) as an electronic software download. Quotes can be requested online at <http://www.tools4ever.com/> or by calling (516) 482-4414. Additional information concerning pricing, licensing, and support policies is also available through these sources.
