

PARTNER WITH TOOLS4EVER

Strengthen IT Services. Elevate Efficiency. Boost Value.

Whether you're looking for an integration to leverage Tools4ever's provisioning and data synchronization, add value via self-service capabilities, implement HelloID for your own customers, or another opportunity, we want to work with you.

From simplified management to helpdesk relief, we can enable you to provide more services for your own customers or increase your software portfolio—especially for cloud initiatives with HelloID.

Why Partner with Tools4ever?

We are a global IDaaS company with over 20 years of experience in account provisioning and employee self-service.

With our global customer base and by managing over 10 million active user accounts, Tools4ever has become one of the Identity and Access Management market leaders. We serve a wide range of organizations varying in size from 50 to more than 200,000 user accounts. Educational bodies, care institutions, government, manufacturing, and financial organizations are among those using Tools4ever's solutions.

Our partnerships have been one of the major factors in our success and we value them greatly. Tools4ever can expand your software stack by offering high-quality IDaaS solutions with sales and implementation training.

Tools4ever's Partnership Program is designed to flexibly provide you with the software, skills, and support to leverage industry-leading cloud Identity Management solutions and expertise. Our solutions, especially HelloID, provide the perfect platform for third-party implementation or use managing your own customers' IT services via automated provisioning, self-service, access management, single sign-on, and more.

Flexible partnership tiers provide numerous opportunities, from referral revenue to integrating APIs and value-add services to full-scale implementation and support.

HelloID provides organizations with:

- ✓ Provisioning to set up new user accounts with all downstream resources.
- ✓ Service Automation, our self-service platform, allows users to directly request resources from their manager or the appropriate decision-maker—no more runarounds for users or IT.
- ✓ Configurable, strong access policies (e.g., date/time, IP address, conditional MFA).
- ✓ SSO and a personalized cloud dashboard, greatly increasing efficiency and security while eliminating repetitive logins.
- ✓ Multifactor authentication (MFA) fully included “out-of-box” at both SSO portal and app levels.
- ✓ Audit trails that comprehensively log all user activity for detailed records.

Check out our Partnership Tiers and contact us to apply!

Get the Word Out with Cross-promotion

Everyone could always benefit from increased press exposure. Let's share promotional networks, including our press releases, newsletters, social media, and more.

Tools4ever Training Program

Get your implementation and support staff first-hand training from our own consultants. We'll help you become the identity management experts your customers need.

We have a partner tier that fits you!

Whether you want to be part of our basic Registered Tier or become an implementation expert in our Elite Tier, we are here to help! Contact our team today to learn about our partnership program.
